Specifications

RENU[®] Zinc 10 (8-0-0 plus 10% Zinc)

— Soil Application Only —

Product Description

RENU[®] Zinc 10 is a liquid formulation of both primary (N), secondary (S), and micro (Zn) plant elements. It is formulated for use in pre-plant or liquid starter fertilizers, including polyphosphates and nitrogen solutions. RENU[®] Zinc 10 is recommended for crops that require high zinc usage, such as but not limited to corn (including field, sweet and popcorn), milo, edible beans, onions, and potatoes.

Guaranteed Analysis

Total Nitrogen (N).....8.00%
 8% Ammoniacal Nitrogen
 Sulfur (S).....4.50%
 Zinc (Zn).....10.00%
 Plant nutrients derived from Ammonia and Zinc Sulfate.

Physical Properties

Density	10.25 lbs/gallon 1.28 lbs/pint
Total elemental nitrogen (N)	0.82 lbs/gallon
Total Sulfur (S)	0.45 lbs gallon
Total elemental zinc (Zn)	1.025 lbs/gallon
Gallons per ton	195.1 gallons

Available in 250 gallon totes and bulk quantities.

General Application and Use Recommendations

RENU[®] Zinc 10 is generally compatible with fertilizer solutions. Proper timing, rate, and placement is important for desired results and highly dependent on stage of crop growth, soil fertility levels, and environmental conditions. Applications as broadcast treatments or row treatments are common and range from 2 to 8 quarts per acre. Always make a small-scale test (jar test) to assure compatibility in your material.

Handling and Storage

RENU[®] Zinc 10 should be stored in a cool, well-ventilated location in vented tanks out of direct sunlight. Avoid containers, piping, or fittings made of brass, bronze, or other copper bearing alloys. Spills from broken containers can be cleaned up with absorbing clay or other suitable materials. Avoid inhalation of vapors if possible. Avoid contact with skin and eyes. Wear proper protective equipment when handling. Dispose of used containers in accordance with local, state, and federal regulations. Keep out of reach of children.

NOTICE: Moore Agricultural Products warrants that this product conforms to the chemical description on the label thereof and is reasonably fit for the purposes stated on such label only when used in accordance with the directions under normal use conditions. It is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use which are all beyond the control of Moore Agricultural Products. In no case shall Moore Agricultural Products be liable for consequential, special or indirect damages resulting from the use or handling of this product.
